The People's Law Library (PLL) needs your help to ensure that its online legal information for Marylanders in need is up-to-date and accurate!

PLL is a legal information and self-help website (www.peoples-law.org) maintained by the Maryland State Law Library. The purpose of PLL is to provide self-represented litigants in Maryland state courts information about the law, including summaries, links to primary and secondary legal sources, and referrals for legal services.

Volunteer attorneys will:

- Learn to use the State Law Library's resources to perform legal research (*bring your laptop*)
- Receive an overview of PLL and instruction on writing for self-represented litigants
- Volunteer, either in small groups or independently, by researching, writing, and editing website content for PLL
- Review and edit (if needed) one additional page of the website by November 30, 2013
